

Advanced Math Student **Instructions**

Supplies required:

- Textbook (2nd ed.)
- Solution Manual (2nd ed.) (This is not just an answer key. It has all the solutions worked out.)
- Boxed Paper – Use 4 box paper for Adv. Math
- Calculator – Scientific to start with, graphing from Lesson 45 onward
- Other supplies listed on the supply list (see website)

Schedule: Begin Thursday, July 23

- July 23-24 Lesson 1
- July 27-31 Lessons 2-4
- Aug. 3-7 Lessons 5-7
- Aug. 10-14 Lessons 8-10
- Aug. 17-21 Lessons 11-13
- Aug. 24 or 25: 1st on location class

Procedure:

1. Watch Lesson on tape, taking notes in spiral notebook and pausing tape to do all assigned problems.
2. Do all 30 problems in problem set without referring to the solution manual.
3. Check all 30 problems and mark those which are incorrect. Do not look at the solutions at this time, only check the final answer.
4. All problems must be reworked until they are correct.
5. If you are having trouble getting the correct answer do the following in this order:
 - a) Try again.
 - b) Consult your notes.
 - c) Consult the Solution Manual.
 - d) Call Mr. Derrick
6. Call in at the end of each week to report your work accomplished. Sets 1-13 must be presented fully correct on the 1st day of class.
